

WILDER FARM SALE

W. ARTHUR SIMPSON AND SON

Milking Shorthorns

AT THE FARM LYNDONVILLE, VERMONT

WEDNESDAY - JULY 23, 1970 - 12:30 P.M.

Auctioneer: "Art" Bennett, Sawyerville, Quebec

Neralcam King Arthur

FOREWORD

Due to labor problems and circumstances beyond our control the cows and bred heifers from one of the oldest and best Milking Short-horn herds in North America will be sold at public auction at Wilder Farm, Lyndonville, Vermont, Wednesday, July 29, 1970.

Approximately 50 head carrying the blood of the long distance cows of the Wilder Farm Herd (13 W. J. Hardy qualified and 6 more are close up, more than any other herd on the continent).

The herd was founded in 1906 and has been a long time factor in breed progress. Milk records have been kept for over 60 years. For nearly 30 years Glenside bred bulls were used and for the past near 30 years the blood of Neralcam King Arthur, Wicklesham Lord Wildeyes and LaFraise Duke 3rd.

With the exception of about five first calves that are Good Plus the cows classify Very Good or Excellent.

Several carry service of the Australian bulls.

W. Arthur Simpson

Lyndonville, Vt

MAIL YOUR BID NOW

Buyers purchasing animals in this sale may leave them at the farm for a few days until transportation arrangements can be made.

MAIL ORDER FORM

If unable to attend the sale personally, you may be assured of proper handling of your bids using this blank as follows: -

Lots and limits of bids _____

Check is enclosed and please buy as you would for yourself in accordance with my instructions, remitting any excess of the bid to me promptly after sale with complete account.

Guarantee

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls sold as separate lots are guaranteed breeders, provided they are not allowed to serve when under 14 months of age or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. Cows with own calves under four months of age by side are considered proven breeders. All other cows and heifers are guaranteed breeders, except that calves sold by side of the dam as one lot. Heifers under two years of age shall not be served by a heavy or old bull. Cows and heifers bred for more than three months, according to the service date furnished at the time of sale, but not proving in calf, must be reported to the seller within three months after date of sale; all others served within three months prior to the date of sale, not settled or proving to be in calf must be reported within six months. Females over 16 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. Any animal not proving up to the foregoing guarantee shall be replaced with another of equal value at the time of purchase to the satisfaction of the purchaser, but the seller may, if he desires, have the animal returned for a retrial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt, it shall be returned to the purchaser at his expense. In case the animal proves to be not a breeder, the purchaser shall be given the option of having the purchase price refunded without interest, or of accepting a substitute as stipulated above. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply upon any animal later substituted.
5. All animals are sold subject to a 60-day retest for tuberculosis, or to comply with the laws regulating tuberculosis of the State or Country into which they be shipped. Animals shall be segregated from the buyer's herd until the retest is made except the herd be a Federal Accredited one. All tests for tuberculosis, either before sale or retest, shall be made by a Federal or State Veterinarian, or veterinarian deputized and qualified to do accredited herd testing. Purchase price to be promptly refunded upon proof of reaction, except that the purchaser shall agree to accept a substitute. All animals tested for Bang's Disease and health chart furnished with each animal.
6. Certificates of registry and transfer will be furnished with each lot sold. Shipment will be made as soon as possible after the close of the sale and without trouble to the purchaser, but at his risk of loss or injury after being bid off.
7. Terms: Cash. These terms to be complied with before the cattle leave the premises.
